(Our facilitator) has done an excellent job especially with our [community forums held to discuss the future of our district](#). In a small school district with a very passionate constituency, I feel having ASBA's help is not only useful, but necessary.

Jill Broussard, Superintendent of Schools
Pinal County

Pinal County School Office has partnered with ASBA for the last several years in providing training locally for [prospective and new Board members in Pinal County](#).

The cost was affordable, the training was excellent and the Board members received more one on one training in a small setting. The meetings were held at the Pinal County School Superintendent's Office and was more centrally located for the rural school districts in Pinal County. ASBA surveyed the school districts to find out what topics would be the most beneficial for the entire group. The workshops were evening workshops so members didn't have to take off work to attend. I would recommend utilizing their services.

Dr. Melissa Satorf, Superintendent
Stanfield ESD

The ASBA team did a fantastic job with our [new Board member's one-on-one orientation](#). The new board member felt well prepared for her first few meetings which will lay the ground work for a solid tenure on our Board. In addition, the work session ASBA facilitated with the full Board has laid the ground work for updating and moving on some goals for the Board's strategic plan, as well as revamping the district's mission and vision. The value that was gained by the SEDS Board members far outweighs the nominal cost associated with these superior services.

Dennis Runyan, Superintendent
Agua Fria UHSD

We found that the retreat coordination support by ASBA freed up the superintendent, board members, and all invited guests to focus on the full agenda topics without distraction or lost productivity.

The ASBA support also [helped board members through processing divergent views](#) being expressed without losing momentum or focus on the task being addressed.

Dr. Jeffrey Smith, Superintendent
Balsz ESD

The Balsz School District has benefited from professional development offered through ASBA. Over the past several years we have invited ASBA to lead discussions on strategic planning, the board's role in governing, and understanding new requirements by the state.
