2023 Calendar of
RECOMMENDED AND REQUIRED DATES**

Introduction

State and federal laws as well as Board policies require school districts to periodically take certain actions. The following listing of policy-related items has been prepared to assist districts in meeting these requirements.

Some of the items require actions that do not have specific time frames (non-date specific), a portion of them require action on an annual or biennial basis, and others specify finite dates by which action must be taken. The listing has been developed to provide as much specificity as possible. Where the statute or regulation lacks specificity, the list provides a suggested timeline for the action.

Activities that have statutory timelines are organized in the listing by date. Others have suggested dates based upon an assumption that the actions should be conducted in conjunction with timeframes determined by other activities such as the organizational meeting of the Board or the adoption of the budget. A notation on the affected items indicates when an alternate period may be selected at local discretion. The information enclosed in square brackets is related legal authority.

It is strongly suggested that this document is reviewed in concert with recent Policy Advisories, District Policy Manual and noted Arizona Revised Statutes. Please refer to this document and the aforementioned advisories and Manual to gain necessary direction in these important matters.

Should there be any questions that arise from the review or subsequent utilization of the information found within this document, please do not hesitate to contact ASBA Policy Services.

A star (*) symbol at the end of a statement indicates Governing Board action is required.
