

Wildflower Accelerated Academy is now an A+ school

FOR IMMEDIATE RELEASE

APRIL 18, 2019

Goodyear, Arizona -- Wildflower Accelerated Academy has been named an "A+" school by the Arizona Educational Foundation.

Located in the suburbs of the west valley, Wildflower is an academy that keeps excelling and proving how strong the public education system is in the Avondale Elementary School District.

Having achieved an A rating by the state of Arizona for the second consecutive year in October, Wildflower qualified to be considered for an outstanding rating for their passion and commitment for educational excellence.

"A+ Schools of Excellence is a comprehensive school assessment program that challenges school teams to work together to identify areas of excellence in teaching, learning, climate, community building, and leadership," defined by the Arizona Educational Foundation.

"In order to receive the A+ award, our school had to prove high levels of student achievement, innovative classroom instruction and programs, implementation of goals through extensive collaborative involvement of parents and community and show evidence of high levels of satisfaction and consensus," says Dr. Araceli Montoya, Wildflower principal.

Wildflower has increased state test scores significantly every year since the 2015-2016 school year. English language arts scores increased by more than 15 percent in proficiency, in the course of two years. In math, there was a proficiency increase of more than 25 percent as well.

"The A+ School of Excellence award is a powerful energizer for increasing public confidence in the public school system. Wildflower is honored to be recognized as an A+ School of Excellence award winning school," says Montoya.

"The motto of Wildflower, 'All Accelerate, All Kids' is actioned daily by every member of the school community. Their journey is one to be celebrated and recognized. We are beyond proud," says Superintendent Dr. Hargrove.
